Edwardsville Bulletin

To the Faculty and Staff of Southern Illinois University

Vol. 3, No. 14
September 27, 1971

Expansion of parking facilities within the core area has eliminated the need for shuttle bus service between the parking lots and the mall area. The cost savings will contribute to other programs of the University.

Parking facilities will be the same as last year, except for additional space available at the Tower Lake apartment complex and work now under way to double the size of Lot A. All University employees are asked to observe the Motor Vehicle Regulatory Policy of September 1, 1971, with reference to speed limits, right-of-way at cross walks and parking. The "assigned vehicle only" space in Lot C south of the General Office Building is restricted to those University-owned vehicles which have been specifically designated as eligible for that space. Please do not park in the tunnel area which services the General Office Building and the University Center. This area is reserved for emergency vehicles such as the Health Service ambulance and delivery of supplies and mail to the University. For guests and visitors there are parking meter spaces available in Lot C and west of the Communications and Science buildings. Lot B behind the University Center offers all-day or shorter term parking for a fee.

A new Vehicle Registration and Fees office has been established in the Bursar's area for your convenience in registration of automobiles. Faculty who want to buy green parking decals, usable in lots A, D, and E must purchase these by Oct. 1.

The U. S. Post Office and the Fast Copy Service have swapped locations with each other in the General Office Building basement.
