Edwardsville Bulletin

To the Faculty and Staff of Southern Illinois University

Vol. 3, No. 6
January 7, 1970

The Disaster Alert siren system will be sounded at 11:25 a.m. and 7:25 p.m. on Monday, January 11, 1971 and Tuesday, January 12, 1971.

The alarms are sounded the beginning of each Quarter to orient campus personnel to the sound of the sirens.

The alert will be a long, wavering intermittent blast of the siren lasting for three minutes. All personnel on campus are urged to become aware of the sirens.

To avoid confusion or misunderstanding, instructors should announce the time of the test at the beginning of the class period Jan. 11 and 12, 1971.

Unless publicized, future sounding of the sirens will be for real. The basements of all main core buildings are the designated safe areas.

Persons in tract houses should go to the basement or lacking a basement, to the inner hallway of the first floor.

This is a test, but observe it for the real thing.
