Edwardsville Bulletin

To the Faculty and Staff of Southern Illinois University at Edwardsville

CHRONO

Vol. 8, No. 11
February 10, 1976

On February 16, 1976, Plant Operations will shut down the Central Heating and Refrigeration Plant for necessary repairs. Depending on outside weather conditions, temperatures inside the core buildings may fluctuate 10° more than is normally associated with the routine closing of the buildings.

If you have specific concerns for your area of responsibility, please coordinate these through your Dean or Director. If the outdoor temperatures are severe, the maintenance will be rescheduled at a later time.
