Edwardsville Bulletin

To the Faculty, Staff and Students of Southern Illinois University at Edwardsville

April 18, 1984
Vol. 15, No. 4

MEMO TO: The University Community
FROM: Earl Lazerson 
SUBJECT: High Temperature Water Line Repairs and Maintenance

Essential repairs and preventive maintenance of the University's central high temperature water lines are scheduled to begin Saturday, April 21, and be completed not later than Monday, April 30.

While the system is down for repairs, the core buildings will be without heat or hot water. Air conditioning and air handling units will operate on a near-normal basis, however some temperature variations may occur. The comfort range of the buildings will be affected by outdoor temperature variations. Please plan to dress accordingly during the week.

We regret the inconvenience, but the project is absolutely necessary to ensure compliance with code requirements for safety standards. Every effort will be made to complete the project as soon as possible.
